Consumer debt relief that works. 10 Days to New Income.

Consumer Debt Relief Has Never Been More Simple! Learn How To Build A Business That Generates Passive Income On A Subject You Love

Regardless of how much debt you have, you CAN overcome it. You may be stunned to learn that "financial crisis" is not necessarily the result of having too much debt.

Don't get me wrong - debt is dumb, and I despise it. As a result of carrying too much debt, millions of households are only one missed paycheck away from a spirit-crushing financial tail-spin

Hi, I'm Richard Gorham, financial expert and "former" debt-ridden consumer. I understand firsthand what it's like to feel scared and out-of-control with my money. But I found a way to overcome my money problems, and I explain it step-by-step in "10 Days to New Income" - an Audio/Ebook course that can SET YOU FREE!

But first, I want to address something head on... While you are certainly entitled to express feelings of fear, panic and even stupidity (Yes, I felt that way too.) - YOU HAVE NO RIGHT TO LET THOSE DESTRUCTIVE EMOTIONS HOLD YOU BACK! It's time to move forward and "CHOOSE" your financial destiny.

"This past August I was able to quit that stinkin' 9 to 5 job - and it would NOT have been possible without my online revenue streams. When I was working and gas prices were through the roof, I was spending \$45 USD every 6 days to fill my car with gas. Now I save on that and all the other business expenses (clothes, lunches out, etc.). Now I can volunteer at my son's school and I have much more time to develop my business. This system has truly created a win-win situation for my family, especially in this difficult economy!"

Will you choose to continue the life you've been living...
